Dear Wonderful Students and Guests,

January 17, 2026

What a great pleasure and privilege it is to invite you to attend the 2026 Association titled “Revelation, Reason, and Demonstration”. The date is set for May 16th and will be held at Arden Wood in San Francisco. The particulars will follow in another email in a few weeks and will also be posted on our website <https://susanbreuerassociation.com>

Many of us have just finished reading *Science and Health* in honor of the 150th anniversary of its publication—and I applaud you all. If you didn’t quite make the January deadline, consider finishing it before our Association. And if you weren’t able to take part in the project at the start, why not choose a chapter or two to read before May? Our textbook is truly transformative—just look at how lives were changed in the Fruitage Chapter. That same transformative power is present and available today.

Mrs. Eddy says of her discovery of Christian Science “... I won my way to absolute conclusions through divine revelation, reason, and demonstration.” SH 109:20
All of us can arrive at deeper spiritual certainty through the same three doors of spiritual inspiration, right reasoning, and a living faith.

So, in preparation for our day would you please do the following:

1. Please submit a testimony of healing.

Please submit a testimony for me to share throughout the address. As many of you already know, your experiences are one of the highlights of our morning and help to inspire us all. The work that you have done for someone is welcome. Please try to email testimonies on or before May 1st.

2. Please Read:

Misc. pages 203-207
Retro. pages 23-29,
Un. pages 8-12, page 20
No & Yes pages 7-13

3. Please read and submit experiences:

“ **Lights Leading to the Practice** ”

<https://sentinel.christianscience.com/issues/2011/7/113-30-31/lights-leading-to-the-practice>.

In this beautiful article, the author shares moments from his life that helped him grow spiritually and eventually led him to become a practitioner. We’ve all had similar moments guiding us in our spiritual journey.

I invite you to reflect on your experience and jot down a few of the lights along the way—people, inspirations, or events—that helped you to become a practicing Christian Scientist. Email these to me on or before May 1st, so I may share a few in our address-anonymously of course. Keep them brief; they don’t need to be lengthy

And as I say every year, don't let the devil deprive you of the opportunity of sharing your testimonies and experiences. The devil's excuses are many although none of them are new!

We come together to reaffirm our commitment to Christian Science, broaden our horizons of what is true and possible, express gratitude for spiritual growth, and best of all to enjoy the sacred bond of fellowship and brotherhood.

Can't wait to see and greet each one of you!

With love,

Susan Breuer, C.S.B.
